Introduction

If you're in town for business with a day spare, or just looking for something to do over the weekend, these packages are for you.

Despite the high human population, Lusaka Province holds many interesting birding areas.

On the south-eastern outskirts of town, a number of private properties still hold primary miombo woodland. You're guaranteed to see a good list of miombo birds, likely to include Souza's Shrike, Spotted Creeper, Rufous-bellied and Miombo Grey Tit, Miombo Rock Thrush and Yellow-bellied Hyliota. Bar-winged Weaver is the most sought-after species here but not always seen. The afternoon can be dedicated to enjoying some wetter areas which may produce the likes of White-backed Duck and Half-collared Kingfisher.

Birding Zambia offers day and overnight (weekend) trips led by top birding guides that have intimate knowledge of the places to find the birds you're after, many of which are not opened to the wider public.
